Re: 2nd Times Replacement Drawings for Patent Application # 10/709,439

Dear Sir/Madam

Attached please find the 2nd times replacement drawings (12 pages attached) for the patent of having *Application Number of 10/709,439* with *Confirmation Number: 3438*. Attached please find also the Fax received from USPTO and the copy of the mail evidence received before and after mails returned to the new address by USPS.

Today, I called to USPTO to get the status of the prepublication of the mentioned Patent Application, as it was not pre-published/found. According to schedule, this was supposed to be pre-published in Dec 9. 2004. Today, after more than 2 hrs communicating with USPTO, back and forth several times from publication (Ms. Betty Powell), Examination (Mr. Gregory Toatley Jr.), and Pre-examination (Mr. Wallace) divisions, I didn't get any appropriate status/answer on the above mentioned Patent Application from any division except Examination Division, where Greg took spent his time to go through the case and found that the mail was returned to USPTO which was sent to us in Oct 18, 2004. His Fax is attached herewith.

We have moved to new location, mentioned below on Oct 4, 2004, and appropriate document was submitted to United State Postal Service (USPS) to return all mails to new location. We started to receive the mails from Oct 5, 2004 until today to our new location. As far as we know no mail was returned to the sender. Attached please find some copy of the mail returned to the new location from Oct. 5, 2004 until most recent one, in December 23, including one from USPTO on Dec. 15, 2004. We didn't know until today that the above-mentioned mail has been sent to USPTO.

I would appreciate if you could process and replace the previous drawing with the submitted drawings herewith attached. Thank you for your kind help and cooperation.

Sincerely,

Aeniyut K. Dutta, Ph. D.

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related application(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

No license under 35 U.S.C. 184 has been granted at this time. If the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
